

INTRODUCTORY CHANT EXERCISES

Here we are using sample phrases from the mantra texts. These extracts are invaluable as both a complete learning practice and as a self teaching aid to re-inforce and emphasise specific aspects of chant rules and patterns of learning wordplay used in specific chants.

Through repeated use of these exercises work can be done to improve pronouncing, pitch, vowel length, vocal strength, voice control and breathing as well as developing confidence in learning by heart and understanding patterns of wordplay used in some mantra.
